

## UX Designer @ VISSEIRO (m/f/x)

Are you looking for a new position in a passionate and innovative tech firm?  
Are you an experienced and talented UX Designer with a strong creative streak?  
Are you someone with strong demonstrable experience in UX/UI Design?

Then we have the perfect position for you!

### Who are we?

We are VISSEIRO, an exciting and innovative healthcare start-up with a strong focus on changing the space of elderly care. We are proud of our breakthrough, patented technology that can measure vital parameters through a seat cushion, allowing health and vital signs to be monitored easily, effectively and without invasive and uncomfortable processes. With our innovative use of cutting edge artificial intelligence, we aim to detect any deteriorations in health before any severe symptoms occur. We identify as a software company who specialize in the evaluation and recording of medical data generated by our unique cloud-based artificial intelligence.

### What will you be doing?

We are looking for a dynamic UX designer who will be responsible for the user experience (UX) and user interface (UI) design of our various digital assets. You will ensure that all elements of the online user experience are optimized for improved usability, usefulness, and exceptional visual design. Your duties and responsibilities will include the following;

- Investigating user experience design requirements for our suite of digital assets.
- Developing and conceptualizing a comprehensive UI/UX design strategy for the brand.
- Producing high-quality UX design solutions through wireframes, visual and graphic designs, flow diagrams, storyboards, site maps, and prototypes.
- Designing UI elements and tools such as navigation menus, search boxes, tabs, and widgets for our digital assets.
- Testing UI elements such as CTAs, banners, page layouts, page designs, page flows, and target links for landing pages.
- Collaborating with the marketing team, and internal and external designers to ensure the creation and delivery of tailored experiences for the digital user.
- Providing advice and guidance on the implementation of UX research methodologies and testing activities in order to analyze and predict user behavior.
- Adhering to style standards on typography and graphic design.

### What are we looking for?

The successful candidate will evidence a passion for delivering adaptive and creative solutions to UX design problems by staying up to date with best practices and emerging trends in user experience design and user interface technology.

The following are required for the position;

- A bachelor's degree and a minimum of 2 years UX design experience for digital products or services.
- A portfolio of professional UX design work for both web and mobile platforms.
- Working knowledge of the following technologies and software: Sketch, InVision, Visio, HTML, CSS (SCSS), iOS, Android, Design Systems, and Adobe Creative Suite.
- A team player but can work independently too.
- Excellent written and verbal communication skills.
- Multi-tasking and time-management skills, with the ability to prioritize tasks.

This is an excellent opportunity for someone with previous experience in the industry who is looking to join an exciting and innovative company, and use their talents and experience to build something amazing. We are able to offer a competitive start salary and an excellent, social working environment alongside a range benefits to make this truly an amazing place to work!

If you are interested in applying for this position or want to find out more information then get in touch and we can take it from there.

Start date: immediately, Application in english or german
